THE SOUTH CAROLINA DIVISION OF RESEARCH

AND

STATISTICAL SERVICES

EUGENE A. LAURENT, PH.D., Director

Preface

The purposes of the South Carolina Statistical Abstract are to present in one volume a diversity of information on South carolina, its people, economy, and government. The Abstract assembles in one reference document a wide range of statistical data generated primarily by state and federal governmental agencies specific to South Carolina. The information has been assembled into 18 major sections: Population; Housing; Vital Statistics; Health; Public Welfare; Income and Selected Economic Indicators; Capital Investment and Industry; Employment; Revenues and Expenditures; Banking, Finance, and Insurance; Government and Politics; Law Enforcement, Crime and Corrections; Education; Mineral Resources, Geography and Climate; Agriculture and Seafood Production; Transportation; Public Utilities; Recreation and Tourism. The sections have been selected for inclusion based on their demand and utilization by a broad range of users. A new section entitled state rankings has been included to facilitate comparisons among the fifty states for selected series.

It is impossible to compile and publish the South Carolina Statistical Abstract without the continued cooperation of the contributing agencies. The research staffs, both professional and clerical, have supported this publication. We would like to thank all of them.

To assist us in producing improved editions in the future, please complete and return the user-comments form.

USER COMMENTS

Your comments will be helpful in planning and publishing future editions of the South Carolina Statistical Abstract.

STATE RANKINGS

DEFINITION OF TERMS AND SOURCE OF DATA

POPULATION	Total permanent resident population including institutions and military installations. Source: U.S. Department of Commerce, Bureau of the Census, Current Population Reports, Series P-25, No. 876.
AREA	Total land and water area. Source: U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1979.
NET MIGRATION RATE	The difference between in-migration and out-migration as a percent of the population of April 1, 1970. A minus sign indicates a net loss. Source: U.S. Department of Commerce, Bureau of the Census, Current Population Reports, Series P-25, No. 876.
BIRTH RATE	Number of births per 1,000 population. Source: U.S. Department of Health, Education, and Welfare, National Center for Health Statistics, Monthly Vital Statistics Report, Vol. 29, No. 1, April 1980.
ACTIVE PHYSICIANS	Number of active physicians per 100,000 population. Source U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1979.
MAJOR CRIMES	Murder, non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny ($50 or more,) and auto theft. Source: U.S. Department of Justice, Federal Bureau of Investigation, Crime in the United States, 1978.
UNEMPLOYMENT RATE	The number of unemployed persons as a percent of the civilian labor force. Source: U.S. Department of Labor, Bureau of Labor Statistics, "Employment and Earnings."
AVERAGE WEEKLY EARNINGS	Average weekly earnings of production workers in manufacturing industries. Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1980.
MANUFACTURING EMPLOYMENT	Persons employed in durable or nondurable manufacturing. Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1980.
TOTAL NONAGRICULTURAL EMPLOYMENT	Full and part-time wage and salary workers who are employed during the week that includes the 12th of the month. (not included are armed forces personnel, unpaid faimily workers, proprietors, self-employed, and workers in private households) Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1980.
TOTAL PERSONAL INCOME	Income figures reflect private and government wage and salary payments in cash and in kind, other labor income, farm and non-farm proprietors income, interest, net rental, dividends, and transfer payments, less contributions for social insurance. Source: U.S. Department of Commerce, Bureau of Economic Analysis, Regional Economics Information System, August 1980.
PER CAPITA PERSONAL INCOME	Personal Income of all persons divided by the total population showing the estimated personal income for each resident. Source: U.S. Department of Commerce, Bureau of Economic Analysis, Regional Economics Information System, August 1980.
NET STATE PER CAPITA ENERGY POSITIONS	This table illustrates and ranks all states on a per capita basis as to their relative position as a net energy producer or (exporter) or net energy consumer (importer) by simply taking the difference between a given state's production of oil, natural gas, coal, nuclear and hydroelectric power and primary energy consumption by the residential, commercial, industrial, and transportation sectors. Source: Regional Forecasts, State and Metropolitan Areas, Chase-Econometrics, July 1980.
PER CAPITA TOTAL GENERAL EXPENDITURES OF STATE GOVERNMENTS FOR ALL FUNCTIONS	All state expenditures other than the specifically enumerated kinds of expenditures classified as Liquor Stores Expenditures and Insurance Trust Expenditures. Source: U.S. Department of Commerce, Bureau of the Census, State Government Finances in 1978.
PER CAPITA FEDERAL AID	All federal aid received by state and local governments. Source: U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1979.

POPULATION

Glossary

Urban - The urban population comprises all persons living in urbanized areas and in places of 2,500 inhabitants or more outside urbanized areas.

Rural - The population not classified as urban constitutes the rural population. The rural population is subdivided into the rural-farm population, which comprises all rural residents living on farms, and the rural nonfarm population, which comprises the remaining rural population.

Population Estimates and Projections - State estimates of population for the non-census years are a weighted average of a regression method, the component method II and administrative records method. Some of the data used by these methods include school enrollments, medicare enrollees, births, and deaths and military strength. Population projections are based on assumptions that trends will be basically stable through the future years.

Standard Metropolitan Statistical Areas - Except in the New England States, a SMSA area is a county or group of contiguous counties which contains at least one city of 50,000 inhabitants or more, or "twin cities" with a combined population of at least 50,000. In addition to the county, or counties, containing such a city or cities, contiguous counties are included in a SMSA if, according to certain criteria, they are socially and economically integrated with the central city.

Planning Districts - The counties comprising the ten planning districts are as follows:

Appalachian - I
Greenville
Anderson
Oconee
Pickens
Spartanburg
Cherokee

Upper Savannah - II
Abbeville
Laurens
Greenwood
McCormick
Edgefield
Saluda

Catawba - III
York
Union
Chester
Lancaster

Central Midlands - IV
Newberry
Fairfield
Richland
Lexington

Lower Savannah - V
Calhoun
Orangeburg
Bamberg
Allendale
Barnwell
Aiken

Santee Wateree - VI
Kershaw
Lee
Sumter
Clarendon

Pee Dee - VII
Chesterfield
Marlboro
Darlington
Dillon
Marion
Florence

Waccamaw - VIII
Horry
Georgetown
Williamsburg

Berkeley, Charleston, Dorchester - IX
Berkeley
Charleston
Dorchester

Low Country - X
Colleton
Hampton
Jasper
Beaufort

CORRECTION NOTE*, APRIL 1, 1970 CENSUS, SOUTH CAROLINA

The official 1970 population count for South Carolina is 2,590,516, as shown in the tables of PC (1) - A42, "South Carolina Number of Inhabitants Report." Listed below are corrections for counties, county subdivisions, and places resulting from errors found after the tabulations were completed. The tables of the PC (1) - A42 Report have not been revised to reflect these corrections.

COUNTIES AND SUBDIVISIONS	1970 POPULATION	
	AS SHOWN IN THE TABLES	CORRECTED
ALLENDALE COUNTY	9,692	9,783
Allendale Division	4,776	4,803
Fairfax Division	2,789	2,806
Sycamore Division	1,575	1,662
CHARLESTON COUNTY:		
Mount Pleasant Division:		
Mount Pleasant Town	6,155	6,879
DILLON COUNTY:		
Dillon Division	5,991	6,391
Dillon Town	5,991	6,391
Dillon East Division	5,630	5,286
Dillon West Division	2,720	2,664
GREENVILLE COUNTY	240,546	240,774
Greenville Division	61,208	61,436
Greenville City	61,208	61,436
HAMPTON COUNTY:		
Hampton Division:		
Hampton Town	2,845	2,966
HORRY COUNTY:		
Myrtle Beach Division:		
Myrtle Beach City	8,536	9,035
OCONEE COUNTY:		
Seneca Division	6,027	6,382
Seneca Town	6,027	6,382
Seneca South Division	5,168	4,813
Utica (U)	1,299	1,218
SPARTANBURG COUNTY:		
Woodruff Division:		
Woodruff Town	4,576	4,690
SUMTER COUNTY:		
Sumter Division	24,435	24,555
Sumter City	24,435	24,555
Sumter West Division	10,180	10,060

Greenville Urbanized Area: Delete Spartanburg County (part) and Woods Chapel division (part) erroneously included in the area.
Spartanburg County: West View (U) shown as Westview (U).

1/: The Total for the State shown here includes all corrections to 1970 census made subsequent to the release of the official counts. The official 1970 Census count for South Carolina was 2,590,516.

2/: Births and deaths are based on reported vital statistics from April 1, 1970 to December 31, 1978 with extrapolations to June 30, 1979. Net migration is the difference between net change and natural increase.

Z: Less than 50 persons or less than 0.05 percent.

HOUSING

Glossary

Household - A household includes all the persons who occupy a group of rooms or a single room which constitutes a housing unit. A group of rooms or single room is regarded as a housing unit when it is occupied as separate living quarters, that is, when the occupants do not live and eat with any other persons in the structure, and when there is either (1) direct access from the outside of the building or through a common hall or (2) complete kitchen facilities for the exclusive use of the occupants of the household.

Persons Per Household - The average population per household is obtained by dividing the population in households by the number of household heads.

NUMBER OF HOUSEHOLDS - UNITED STATES AND SOUTHEASTERN STATES

1978 AND 1970

AREA	TOTAL HOUSEHOLDS				HUSBAND-WIFE HOUSEHOLDS 1978 (PROVISIONAL)

VITAL STATISTICS

Glossary

Live Births - The complete expulsion or extraction from its mother of a product of human conception irrespective of the duration of pregnancy, as indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

Death - The permanent disappearance of any evidence of life at any time after live birth.

Infant Death - Death of a live born infant under one year of age.

Residence Allocation - Vital events in these tables are allocated to the place of residence (county) regardless of the place of occurrence. In the case of a birth, residence is the usual residence of the mother. Deaths are allocated to the residence of the deceased.

PUBLIC WELFARE

Glossary

AFDC (Aid to Families with Dependent Children) - Financial assistance available to families with children who are deprived of parental care or support due to the absence or incapacity of one or both parents. Payments are based on the differences between income available to the family and the total allowance established under the Consolidated Standard of Need for food, clothing, shelter, utilities, household furnishing, equipment and supplies, personal expenses, medicine (other than prescription drugs), certain school fees, and transportation costs for the members in the budget unit.

Food Stamp Program - A federal, state and local program designed to provide individuals meeting certain income eligibility standards set by the federal government with coupons for food through purchase or as a reduction from their assistance payment. The purchase price of the coupons is less than the dollar value of the goods they can purchase.

Medicare - A federal hospital and medical insurance protection plan enacted in 1965 under the Social Security program. The program was designed to cover persons 65 and over and has been expanded to include persons under 65 who have been entitled to disability checks for 2 ore more consecutive years and persons with permanent kidney failure who need dialysis or kidney transplants.

Public Assistance - Aid provided to the needy, aged, blind, disabled and families of dependent children under federal and state programs.

Vocational Rehabilitation Services - A state and federal program designed to help those with mental or physical disabilities and those with handicaps to become more employable and get jobs. Services include eligibility determination, designing vocational rehabilitation programs, placing clients in jobs and following up programs after employment.

Social Security - A U.S. government program designed to provide continuing income when the individual or family earnings are reduced or stopped because of retirement, disability or death. The program was established in 1935 covering only the worker at retirement but has been gradually extended to include provisions for old age and survivors insurance, contributions to state unemployment insurance, and old age assistance.

Glossary

Personal Income - Personal income is the current income received by persons from all sources net of contributions for social insurance. Not only individuals (including owners of unincorporated enterprises), but non-profit institutions, private trust funds, and private health and welfare funds are classed as "persons." Personal income includes transfers (payments not resulting from current production) from government and business such as social security benefits, military pensions, etc., but excludes transfers among persons. Although most of the income is in monetary form, there are important nonmonetary inclusions - chiefly, estimated net rental value to owner-occupants of their homes, the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms.

Disposable Personal Income - Is personal income less personal tax and nontax payments. It is the income available to persons for spending and saving. Personal tax and nontax payments are tax payments (net of refunds) by persons (except personal contributions for social insurance) that are not chargeable to business expense, and of certain personal payments to general government that are treated like taxes. Personal taxes include income, estate and gift, and personal property taxes. Nontax payments include passport fees, fines and penalties, donations, and tuitions and fees paid to schools and hospitals operated mainly by government.

Per Capita Personal Income - Personal income divided by population showing the estimated personal income for each resident.

Poverty - Unless otherwise specified, poverty level statistics represent measures of money income and are based on a "poverty index" first developed by the Social Security Administration (SSA) in 1964 and subsequently modified by a Federal Interagency Committee in 1969. At the core of this index is a nutritionally adequate food plan ("economy" plan) designed by the Department of Agriculture for "emergency or temporary use when funds are low." This index provides a range of income cutoffs or "poverty income thresholds" adjusted by such factors as family size, sex and age of the family head, number of children under age 18, and farm-nonfarm residence.

There are three sources of income:

1. Government - income from governmental wages, salaries, pensions and unemployment benefits.

2. Farm - income of propietors, tenants and employees from operation of privately owned farms.

3. Private nonfarm - all personal income other than government and farm.

1. These data are projected form the Current Population Survey (CPS) benchmark and have been adjusted for commuting and dual job holding. Consequently, these data represent persons by place of residence and are not strictly comparable to the establishment based nonfarm wage and salary industry employment series. This series replaces all previous labor force series.

2. By Place-of-Work. The Sum of the ten districts will not sum to the state total, due to the state total including employment that is not allocated by county.

3. A sizeable amount of net taxable sales cannot be allocated by county. Therefore the sum of the ten districts will not sum to the State total.

4. Includes a total of 3,223 firms engaged in mining, manufacturing and electric, gas and sanitary services.

CAPITAL INVESTMENT, AND INDUSTRY

Glossary

Number of Establishments - is the total number of locations at which each company has plants, counting each distinctly different line of activity at each location separately, insofar as company records permit.

Total Capital Invested - Actual investment in the firm since the start of construction or operations, less depreciation. This covers plant, real estate, machinery and equipment, furniture and fixtures, delivery equipment, and any rent paid for buildings, machinery, etc.

New Capital Invested - Investment, less depreciation, in the firm for the fiscal year surveyed only. New Capital Invested will be included in Total Capital Invested.

Production Employees - Includes working foremen, and all non supervisory workers (including leadmen and trainees) engaged in fabrication, processing, assembling, inspecting, receiving storage handling, packing, janitorial, watchman services, warehouse shipping, trucking and recordkeeping and other services closely associated with the above production operations.

Value of Products Manufactured - Dollar value of all manufactured or processed products produced during the fiscal year surveyed. This value is determined by totaling the number of units made or processed and multiplying by the selling price per unit. Also defined as the gross sales of all such manufactured or processed products including value of products in warehouses or unsold.

EMPLOYMENT

Glossary

Labor Force - All people classified as employed or unemployed during the week that includes the 12th of the month.

Civilian Labor Force - All civilians who are classified employed or unemployed during the week that includes the 12th of the month. (excludes military personnel)

Employed Persons - All civilians who worked at least one hour for pay or profit or worked 15 hours or more, unpaid, in a family enterprise. Persons away from their employment for illness, bad weather, vacation or labor disputes during this week are counted as employed.

Nonagricultural Employment - Full and part-time wage and salary workers who are employed during the week that includes the 12th of the month. Not included are armed forces personnel, unpaid family workers, proprietors, self-employed, and workers in private households.

Insured Employment - Persons employed by firms covered by the S.C. Employment Security Law. This is approximately 75% of nonagricultural employment and includes nonprofit organizations employing four or more people and State educational and hospital institutions.

Unemployment - All civilians who are not employed during the week including the 12th of the month who made specific efforts to find a job within the previous four weeks and who were available for work during the week that includes the 12th of the month.

Wholesale Trade - Wholesale trade has now been divided into two major groups: (1) durable goods and (2) nondurable goods. The types of wholesale trade are: merchant wholesalers; manufacturers' sales branches and sales offices - establishments, separated from plants or mines maintained by manufacturing, refining and mining companies for marketing their products wholesale; merchandise agents and brokers - establishments whose operators are in business for themselves and are primarily engaged in selling or buying goods for others.

Retail Trade - Retail trade covers places selling directly to personal and household users, but not industrial users.

Unemployment Rates - Total number of unemployed people as a percent of the civilian labor force.

CIVILIAN LABOR FORCE 1/, TOTAL EMPLOYMENT AND TOTAL UNEMPLOYMENT
IN SOUTH CAROLINA, 1973-1979
(IN THOUSANDS)

YEAR	CIVILIAN LABOR FORCE	TOTAL EMPLOYMENT 2/	TOTAL UNEMPLOYMENT	UNEMPLOYMENT AS PERCENT OF LABOR FORCE

1/: These data are projected form the Current Population Survey (CPS) benchmark and have been adjusted for commuting and dual job holding. Consequently, these data represent persons by place of residence and are not strictly comparable to the establishment-based nonfarm wage and salary industry employment series. This series replaces all previous labor force series.

2/: Includes workers involved in labor management disputes; also includes agricultural workers and nonagricultural self-employed, unpaid family, and domestic workers.

3/: Preliminary 1979 data.

NOTE: Sum of items may not add to totals due to rounding.

REVENUES AND EXPENDITURES

Glossary

REVENUES

General Fund - The State's largest primary revenue-generating fund group. It represents a composite of revenue sources derived from taxation, licenses, fees and all insitutional and departmental revenues or collections including income from the sale of commodities and services or other activities which provides funds for the fiscal operation of State government.

The various revenues making up the General Fund are categorized into three source descriptions for accounting purposes in the fiscal State Budget: Regular Sources, Miscellaneous Sources and Federal Revenue Sharing Funds.

Regular Sources: Revenues which are established basis of income from year to year. These include the Sales and Use Tax, the Income Taxes, (individual and corporation) and an All Other segment comprised of twenty-eight additional tax, interest, assessment and/or license accounts.

Miscellaneous Sources: Revenue that is not as predictable as collections from Regular Sources. Generally, this classification incorporates: (1) those receipts which do not always recur in succeeding years, often labelled "windfall revenues" and (2) first-year collections of newly enacted taxes.

Revenue Sharing: Funds pursuant to the provisions of the State and Local Fiscal Assistance Act of 1972, as amended (Revenue Sharing Act). These include general Revenue Sharing Funds, Anti-Recession Aid funds, and interest received from investment of said accounts during the current fiscal year. "Windfall Revenue Sharing Funds" based on allotments and interest received by the State for the funding period of January 1, 1972 through June 30, 1973 were maintained in a separate account and reported as a special entry on the financial statements apart from the General Fund prior to Fiscal year 1977-1978. Prior years have been adjusted to incorporate this fund in this edition.

Aid to Subdivisions - Distribution of State aid to counties and municipalities. Except for a reimbursement to counties for a homestead exemption (property tax), funds are allocated on a percentage basis from total collections of designated State taxes. The distribution formula is prescribed by statute and is subject to change. Types of funds: (1) Unrestricted - where such monies may be used for the general operations of the county, city, or town; (2) Restricted - where the expenditure of such monies is designated by law or regulation to a particular project or program.

EXPENDITURES

South Carolina (General Fund) - The State expenditure data is limited to General Fund operations only and will differ from the consolidated expenditure statements outlined in other S.C. financial agency reports. Expenditures are classified by functional groups. The following appropriations are excluded: (1) Capital Outlay and Non-Recurring -- funds utilized for capital improvements and other special projects i.e., new construction, expansion and/or renovation of the physical plant. (2) All Federal appropriations except "recurring" Revenue Sharing appropriations (See R. Sharing description of this section for applicable R. Sharing fund (3) Highway Fund - expenditures for the operation of the S.C. Department of Highways and Public Transportation.

Government Units - A government is an organized entity whose governmental character is evidenced by popular election of its officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distingulsh it from the administrative structure of any other governmental unit.

State Government - This category refers to the governments of the 50 states which constitute the United States.

Local Governments - The Bureau of the Census classifies local governments by five major types--county, municipality, township, school district and special district.

BANKING, FINANCE, AND INSURANCE

Glossary

Banking System - Banks in this country are organized under the laws of both the States and the Federal Government. State-chartered banks are supervised by officials of the respective States. "National" banks are supervised by the Comptroller of the Currency.

The Federal Reserve System - was established in 1913 to exercise central banking functions, some of which are shared with the U.S. Treasury. It includes national banks and such State banks as voluntarily join the System.

Savings and loan associations which unlike banks, are not engaged in deposit banking, are primarily involved in credit extension in the form of loans.

Insurance - Insurance companies are classified as either life or property.

LAW ENFORCEMENT, CRIME AND CORRECTION

Glossary

Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.

Burglary - The unlawful entry of a structure to commit a felony or theft, even though no force was used to gain entry.

Robbery - Occurs in the presence of the victim to obtain property or a thing of value from a person by use of force or threat of force.

Commutation - Reduction in the severity of a sentence (usually reduction in the length of a prison term); reserved to the Governor by the State Constitution.

Conditional Release - Parole for a Committed Youthful Offender, that is, a person under 21 years of age sentenced by a trial judge under the Youthful Offender law.

Juvenile - For purposes of juvenile jurisdiction of the district courts, a juvenile or "child" is defined as being, with two exceptions, one who has not reached his or her eighteenth birthday and "is not married, emancipated, or a member of the armed services of the United States". The exceptions are where a person has committed, or is alleged to have committed, a criminal offense, including violations of the motor vehicle laws; or has violated the conditions of probation previously ordered in a court proceeding. For these latter situations, the statutes provide that a juvenile or child is one who has not reached his or her sixteenth birthday.

Pardon - Remittance of the remainder of a sentence; reserved to the Governor by the State Constitution.

Parole - Release from prison before completion of sentence by the Parole Commission; subject to specified conditions, usually including supervision by an appointed authority subject to revocation and imprisonment if the conditions are breached.

Probation - Suspension of an active prison sentence by a trial judge; subject to specified conditions, usually including supervision by an appointed authority; subject to revocation and imprisonment if the conditions are breached.

Reprieve - Delay in the execution of a sentence; can be granted by a court or the Governor.

*Percentage is less than 0.1%

[1]Percentages in this column are based on the total number of offenders, not the total number of offenses.

[2]Ranking is in descending order according to offense; the offense category with the largest total number is ranked number one.

[3]The total number of offenses exceedsthe total number of offenders because some offenders committed multiple offenses.

EDUCATION

Glossary

ELEMENTARY AND SECONDARY EDUCATION

Average Daily Attendance (ADA) - Is the aggregate number of days in attendance for a given period divided by the number of days the school is in session during this period.

Average Daily Membership (ADM)- Is the aggregate number of days in membership for a given period divided by the number of days the school is in session during this period.

Final Enrollment - Enrollment at beginning of the school year plus new enrollments from a non-public school or another state. Withdrawals are not subtracted from the enrollment figures.

Schools - The National Center for Education Statistics (NCES) defines a "school" as "a division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant, as is the case when the elementary programs are housed in the same school plant."

"Regular" schools are those which advance a person toward a diploma or degree. They include public and private nursery schools, kindergartens, graded schools, colleges, universities, and professional schools. "Public" schools are schools controlled and supported by local, State or Federal governmental agencies; "private" or "non-public" schools are those controlled and supported mainly by religious organizations or by private persons or organizations.

The Bureau of the Census defines "elementary" schools as including grades 1 through 8; "high" schools as including grades 9 through 12; and "colleges" as including junior or community colleges, regular 4-year colleges, and graduate or professional schools.

School Year - Except as otherwise indicated in the tables, data relating to enrollment and staff refer to the school year which includes 180 days for students and 185 for staff. Generally, the school year begins in August and ends the first week in June. Statistics concerning finances are for a 12-month period beginning July 1.

HIGHER EDUCATION

Bachelor's Degree - Requires successful completion of at least four but nor more than five years of academic work.

Doctor's Degree - Includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Philosophy in any field.

First Professional Degree - Signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.) and Doctor of Medicine (M.D.) degrees.

Master's Degree - Is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Full-Time Equivalency (FTE) for Public School Staff - Is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position.

Technical Education - Programs designed to prepare individuals for employment. Completion of a two-year curriculum leads to an associate in Applied Science degree.

Unduplicated Headcount - The number of students enrolled in each listed program. A student is counted in only one curriculum. The extension totals are also unduplicated headcount. Although a student in extension may be counted in each program, he is counted only once in the total.

Vocational Education - One-year programs designed to prepare an individual for employment in a specific occupation; normal completion time requirement is four quarters.

1979-80	154,158	3,545	157,703

1) Includes Comprehensive Manpower Program and S.C. Fire Academy.

* This apparent decrease in enrollments was due to a change in the method used to count enrollments for funding purposes. Since some part-time students enrolled in courses not related to a specific major, each course for which they enrolled, prior to July 1, 1973, counted as one enrollment. With the development of new computer programs and systems techniques, any student now enrolled in several courses or during two or more terms of an academic year is counted as one enrollment for that year.

MINERAL PRODUCTION IN SOUTH CAROLINA

MINERALS	1978	1979
Clays	$22,538,000	$ 24,297,000
Mica (scrap)	782,000	774,000
Sand and gravel	22,530,000	21,500,000
Stone:		
Crushed	44,240,000	46,209,000
Dimension	567,000	554,000
Fuller's earth, peat, gem stones, vermiculite, maganiferous ore (for brick manufacture)	7,923,000	11,714,000
Total	$98,580,000	$105,048,000

NOTE: The value of mineral production in South Carolina ir 1979 increased about 6.5% to an estimated $105 million. Commodities contributing to the bulk of the value include crushed stone, clays, limestone (for cement), sand and gravel.

NOTE: South Carolina ranked in the top five in production of kaolin, manganiferous ore (for brick manufacture), mica (scrap) and crude vermiculite.

AGRICULTURE AND SEAFOOD PRODUCTION

Glossary

Farm - A farm consists of a place of 10 or more acres from which sales of farm products amounted to $50 or more in the preceding calendar year, or a place of less than 10 acres from which sales of farm products amounted to $250 or more in the preceding year.

Cropland - Land used for all row crops, close-grown field crops, rotation hay and pasture, hayland, conservation use only (excluding forest land), temporarily idle, orchards, vineyards, bush fruit, and open land formerly cropped.

Federal Land - Federally owned land, except that federally owned cropland operated under lease or permit is excluded.

Gross farm income includes four principal components - Cash receipts from farm marketings of farm products represent gross receipts from commercial market sales as well as loans (net of redemption) made or guaranteed by the Commodity Credit Corporation and other purchases under price support programs. Government payments to farmers are those made directly to farmers in connection with farm programs. Nonmoney income includes the value of farm productions consumed directly in farm households and the rental value of housing provided by farm dwellings. Expenses associated with these products and the dwellings are included in the production expense estimates thus, the nonmoney imputations do not add on a dollar-for-dollar basis to the net. Other farm income is cash income from sources such as recreation, machine hire, and custom work.

Farm production expenses are costs incurred in farm production. They include current farm operating expenses for such items as wages paid to hired labor (in cash and in kind), outlays for repairs of equipment and operation of the farm, as well as purchases of oil, feed, seed, and livestock. Overhead-type costs include charges for depreciation and other capital consumption, taxes on farm property, and interest on the farm mortgage debt.

Farm operators' net income before inventory adjustment represents what is left gross farm income after deducting farm production expenses.

Per capita personal income of the farm population is derived by dividing the appropriate totals by the number of people living on farms.

Farm Income - Cash income is the cash receipts from farm marketings and Government payments made directly to farms for farm related activities. Farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market. Gross farm income includes cash income, value of farm products consumed in farm homes, rental value of farm homes, and other farm-related income.

RANKINGS OF SOUTHEASTERN STATES AS TO THEIR INDUSTRIAL ENERGY CONSUMPTION
AND TRANSPORTATION ENERGY CONSUMPTION
1978

STATES	PER CAPITA INDUSTRIAL ENERGY CONSUMPTION (mmBTV)	RANK[1/]	PER CAPITA TRANSPORTATION[2/] ENERGY CONSUMPTION (mmBTV)	RANK[3/]
South Carolina	135.8	20	92.24	31
Alabama	215.6	7	110.08	13
Arkansas	164.6	14	106.28	21
Florida	62.9	46	101.03	24
Georgia	100.9	35	107.30	19
Kentucky	132.8	21	95.32	30
Louisiana	542.7	1[1/]	150.27	5
Maryland	88.6	38	79.12	39
Mississippi	119.3	27	107.46	17
North Carolina	102.6	32	86.87	34
Tennessee	172.3	11	101.51	23
Virginia	72.0	41	99.53	26
West Virginia	221.1	6	82.40	38

1/: The top rankers tend to be those with the heaviest concentration of energy-intensive industry- the refinery-petrochemical complexes of the Gulf Coast.
2/: Transportation energy demand includes jet fuel, bunkers, diesel, natural gas pipeline fuel, motor gasoline.
3/: Those states with relatively low population have the highest per capita transportation energy consumption.

Glossary

Traveler - The broad term traveler or tourist includes persons going outside their daily commuting zones. State residents traveling on trips away from home are included in the total, along with out-of-state visitors. The estimates include persons traveling for business, pleasure, and personal affairs. Also included are travelers passing through en route to destinations beyond, and parties making short trips, such as weekend or holiday visits. One-day as well as overnight trips are included. Regular commuters are not included.
